The minimum requirements to pass Driver Education for **DDSD credit** and earn an **ODOT Certificate of Completion** are:

- 1) **30 hours of classroom instruction at 80% proficiency.** (Be punctual and ready and willing to learn, bring a pencil, textbook and other course materials are provided)
- 2) **12-hours of Behind-the-Wheel Driving and Observation.** (This will take place on weekdays, and/or weekends. A driving schedule will be worked out individually with each student. Students will be assigned in pairs, and are scheduled for 6 meetings to meet the twelve-hour requirement. Failure to meet a driving appointment without making prior arrangements is grounds for being dropped from the course. If there is a problem, talk with the teacher) **FIRST DRIVE INFORMATION:** All students must complete their first drive between September 23rd and October 4th. Please make sure that you are available for the first drive.
- 3) **Five hours of practice driving supervised and documented by a parent or guardian--forms are provided.**
***AN IMPORTANT MESSAGE TO PARENTS:** Your student will be learning many essential skills necessary to become a safe and defensive driver. Practice of these skills is critical to student success. Practice driving should begin immediately, and continue during and after the Driver Education course. At home practice is required)
- 4) **A final drive test with a score of 80% or better.** (The final drive test will take place after our last classroom session and is part of our last drive).
